November 24, 2020

Dear Consumers, Families, and Service Providers,

We would like to take the opportunity to provide a few important health and safety reminders to our community. Please be aware that the California Department of Public Health recently amended their public guidance to require face coverings *at all times* when outside of the home unless an exemption applies. Exemptions include when alone in an office with the door closed and when actively eating or drinking, provided that social distancing of 6 feet from persons who are not members of the same household is maintained. For a list of all exemptions, please click on this [link](#).

Additionally, we want to thank staff, service providers and community partners in continuing to support individuals and families during these unprecedented times. We know that direct service delivery requires the use of masks, frequent handwashing and sanitizing to help keep people safe, and that everyone has had to adjust to ensure the health and safety of our community. Together we can continue to make a difference.

Thank you!

Ruth Janka
Executive Director
